Single Pancakes Production Line

Product description

Pancakes that are made from flour, eggs, milk, sugar and baking powder are loved all over the world. A new entry model line that can produce Pancakes at a reasonable price has been launched. Corresponding to the various products, such as Blin, Butter milk pancakes, Scotch pancakes, Pikelets, Hot cakes, the entry model of the line can bake pancakes starting from a minimum of **70 mm** (2.8 inches) **up to a maximum of 140 mm** (5.7 inches). The product capacity will be up to **4,800 pieces per hour**.

Single Pancakes Production Line

The new concept is based on our standard line with an output of 2,400 pieces sandwich pancakes / hour, with the difference that the **baking part of the line is separate and this solution is primarily intended for customers who want to produce primarily Single Pancakes.**

Baking unit for production of Single Pancakes.
